Prot. 2329

Pos. F1

Roma, November 6th, 2002

Buthmann Ingenieur-Stalhbau GmbH
Humboldtstrasse 12
21509 Glinde

Dear Marco Buthmann:

We would like to sincerely thank you for the materials sent by HTC - Hanseatic Trade Centre of Hamburg. The detailed drawings and complete documentation sent were of the highest quality and met all of our needs and more. These materials are reflected in the architectural quality of the building by Von Gerkan and Marg.

These drawings and documentation were used by students completing their Laureate degrees and doing research directed by Professor Adolfo Sajeva. These designs are currently being held by the Library of the Dipartimento di Architettura e Analisi della Città and continue to set the standard for students learning how to construct their architectural visions.

Our University is grateful for your assistance and hope that we can continue to collaborate in the future.

Best regards,

Il Preside
Prof. Arch. Salvatore Dierna
